Suggestions for Focus

Tell your story your way. If you need some ideas to get started, you may consider focusing on:

- **Your personal journey.** *What motivations, challenges, and successes have shaped your adult education experience?*
- **Your school.** *What is it about the people, the courses, and the daily sights and sounds that makes your school a great place to learn?*
- **Your suggestions for success.** *What advice would you give other adult learners returning to school?*
- **Your learning community.** *How do the teachers, administrators, support staff, and/or students at your school create a supportive and successful learning environment?*
- **The effects of education.** *What have you been able to accomplish or what has improved in your life since starting or completing your classes?*
- **The importance of adult education in Manitoba.** *How do adult education and literacy programs benefit our communities and our province?*
